

# PhD Programme in Physics - XXXVIII Ciclo

## Criteria for the assessment of qualifications

A total score of 20 points will be awarded for qualifications.

The categories of qualifications will be evaluated in terms of their relevance to the Ph.D. programme and the maximum score attributable to each is as follows:

♦ **Graduation assessment up to a maximum of 10 points, determined as follows:**

up to 100	0 points
101/104	4 points
105/107	6 points
108/110	8 points
110 with honour	10 points

For candidates who are to obtain their qualification by September 30, 2022, assessment will be calculated based on the weighted average of the results of all exams up to the expiry date of this call. If the candidate holds more than one degree, relevant to the course for which they wish to compete, they must indicate the title to be taken into account for the evaluation by the Judging Commission.

♦ Up to a maximum of 4 points may be awarded for scientific qualifications relevant to the subjects covered by the Ph.D. programme for which application is made:

- Scientific publications (monographs, articles in scientific journals): 1 point for publications included in SCOPUS or WOS data bases
- Minor Publications (national and international dissemination conferences, specific volume contributions, etc.): 0.5 points for extended proceedings.

♦ Up to a maximum of 4 points may be awarded for academic and study qualifications relevant to the subjects covered by the Ph.D. programme:

- 1st or 2nd Level University Master, post-graduate specialization qualifications, specialised diploma qualifications: 1 point for each qualification

♦ Up to a maximum of 2 points may be awarded for:

- Documented research activities at qualified Italian and foreign institutions relevant to the subjects covered by the PhD programme: 0.5 points for each semester of activity.

The President Prof. P. Facchi
